7570	OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION (ASA)	$-77,607,278.33	20

Methodology

Source and coverage

FPDS Award actions in GETWAB's FPDS dataset. Actions without a usable signed date or obligation amount are excluded. Queried on November 19, 2026; latest signed date in the selected scope: September 30, 2026. This is not a completeness or refresh date.

Parameters

State: FL. The recorded principal place of performance, not the vendor address. The national benchmark groups locations outside the 50 states and unclassified locations separately from state rows.

Start fiscal year: FY 2025. End fiscal year: FY 2026. Both endpoints are included. Fiscal years are assigned by signed date and run from October 1 to September 30. An open fiscal year is partial.

Layout: Portrait. This changes the page format, not the data.

Metrics and limits

Net obligations add the signed award-action amounts, including negative adjustments. They are not cash outlays or award ceilings. Actions count reported transactions, not distinct contracts.

Year-over-year change compares adjacent observed, completed fiscal years. Percent change divides the dollar change by positive prior-year net obligations. A missing year is not zero. Display rounding can affect totals by cents.

The state trend and funding tables are restricted to the selected state. The funding table splits actions by funding/requesting code. Actions without a reported funding code are unclassified.

Reproduce the results

Open SFPR-GEO-COLL-1.sql in the accompanying ZIP (also available as a separate download). Run the labeled SELECT statements one at a time in FPDS Query. Confirm the signed-date and scope filters before comparing the result. Reruns against newly updated FPDS data may differ.

GETWAB FPDS Query

Conclusions

Analyst commentary / static archive sample

What the data shows

The two-year state total was $67.17 billion across 473,863 actions, with FY 2026 about $2.14 billion above FY 2025. Pair the state trend with the US benchmark before treating that difference as a state-specific development. A transaction count measures award actions, not the number of projects.

How to use the result

Funding code 1700 accounts for $19.05 billion, roughly 28% of the selected state's two-year net. The funding table is a starting point for tracing exposure to that agency; verify the relevant award and contracting office before attributing the work to a specific buyer. The state represents reported primary performance.

About this example

This fixed public sample uses an actual GETWAB report snapshot dated 2026-11-19. The commentary was written for this example without a runtime model. Reusable SQL and supporting tables are provided with an ordered report, not with this preview.
