Disclosure Statement

This report uses publicly available data from the Federal Procurement Data System (FPDS). It is intended for informational and analytical purposes.

At a glance

$34,652,023,937.40 in net obligations across 225,923 dated FPDS Award actions. 172 funding agency codes with reported amounts were ranked.

Largest reported funding agency: DEPT OF THE NAVY (1700), $10,905,647,855.15.

Latest matched signed date: 2026-09-30. Actions without a usable funding code: 0. Actions without an amount: 0.

The full ranking is included as a CSV in the ZIP.

Funding agency ranking

Rank	Funding code	Reported agency name	Net obligations	Award actions
1	1700	DEPT OF THE NAVY	$10,905,647,855.15	7,344

–	–	Other ranked funding codes (152)	$1,360,589,984.70	31,976
–	–	State total	$34,652,023,937.40	225,923

Methodology

Period and geography

Dated FPDS Award actions for Florida (FL), FY 2026, selected by signed date (UTC) through 2026-11-19. Federal fiscal years start October 1. An open fiscal year is partial. IDVs and Other Transactions are excluded.

The record must identify USA and the selected state as primary place of performance. The recipient's address and secondary worksites do not enter the filter.

Funding agency and net obligations

Group by the recorded funding/requesting agency code, not the contracting office or a department roll-up. Each code shows its latest nonblank reported name in this scope; naming changes do not create a second ranked row.

Sum signed obligated amounts in exact cents, including deobligations. This is not outlays or a contract ceiling. Action counts include records without a dollar amount, and those amounts do not enter the sum.

Ranking and coverage

Rank usable codes with reported amounts by net obligations descending, breaking ties by code. Codes without amounts and blank or malformed codes are unranked. They remain in state action counts.

The PDF shows up to 20 ranked codes and a reconciled remainder. The CSV lists every code, the unclassified group when present, and the state total. Import the code column as text to retain any leading zeros.

Reproduce the result

Queried at 2026-11-19T17:56:40+00:00. The ZIP contains the PDF, full CSV and exact SQL. Use GETWAB FPDS Query to reproduce the totals and rankings against the available source data.

Conclusions

Analyst commentary / static archive sample

What the data shows

The selected state recorded $34.65 billion across 225,923 dated actions. At $10.91 billion, funding code 1700 represented almost one third of the reported state net. That concentration identifies a material funding source but is not the state's entire buyer landscape.

How to use the result

Read down the ranking for the next relevant source and check the underlying awarding agency before building a target list. Net obligations include reducing transactions and the state is the primary performance location, not a measure of the recipient's legal residence.

About this example

This fixed public sample uses an actual GETWAB report snapshot dated 2026-11-19. The commentary was written for this example without a runtime model. Reusable SQL and supporting tables are provided with an ordered report, not with this preview.
