## STANDARDIZED FEDERAL PROCUREMENT REPORT

## FEDERAL OBLIGATIONS BY FISCAL YEAR

### All FPDS awards (FY 2025–2027)

Prepared by: GETWAB INC.
Website: https://www.getwab.com
For inquiries regarding this report: ilia.oborin@getwab.com

**Disclosure Statement**

This report uses publicly available data from the Federal Procurement Data System (FPDS). It is intended for informational and analytical purposes.

## At a glance

The table shows net obligations and the number of dated award actions, one row per federal fiscal year.

Latest matched signed date: 2026-11-18. Actions without a reported obligation amount: 0.

FY 2027 was still open at the cutoff (2026-11-19). Do not compare it to a full year.

## Annual obligations

| Fiscal year | Period status | Net obligations | Award actions | Latest signed date |
|---|---|---|---|---|
| FY 2025 | Closed | $780,419,040,743.25 | 6,338,584 | 2025-09-30 |
| FY 2026 | Closed | $807,707,140,877.39 | 5,433,705 | 2026-09-30 |
| FY 2027 | Open / partial | $21,007,761,382.85 | 190,432 | 2026-11-18 |

# Methodology

## Source and period

FPDS Award actions signed in FY 2025 through FY 2027, inclusive, with a signed date through the 2026-11-19 cutoff (UTC). The federal fiscal year starts October 1 and ends September 30.

IDVs, Other Transactions and actions without a usable signed date are not included.

## Filters

Awarding agency: Any (contracting-office agency, not the funder); principal NAICS: Any; PSC: Any. When set, codes must match exactly and filters combine with AND.

## Obligations and coverage

Sum signed obligated amounts in cents, including negative adjustments. Net obligations are not payments or contract ceilings. Action counts include dated transactions without amounts; those amounts do not enter the sum.

Net obligations are marked not reported if no amount exists, not zero. An open fiscal year is partial. A closed year can still be revised, and the latest signed date shows the latest matched record, not a completeness guarantee.

## Reproduce the result

Queried at 2026-11-19T18:31:10+00:00. The ZIP contains the exact SELECT and the PDF. Run the SELECT in GETWAB FPDS Query to reproduce the annual cents, action counts, amount coverage and latest dates against the available data.

GETWAB FPDS Query

# Conclusions

Analyst commentary / static archive sample

## What the data shows

FY 2026 reported $807.71 billion, $27.29 billion above FY 2025. Compare these completed fiscal years separately from FY 2027, whose $21.01 billion covers only the observed portion through November 18, 2026.

## How to use the result

The scope includes nearly 12 million actions and shows no missing amounts, but that is not a record of unique contracts or actual disbursements. Use the dated cutoff and restated source data when reproducing the totals, and use a comparable partial-year window if comparing the open year.

## About this example

This fixed public sample uses an actual GETWAB report snapshot dated 2026-11-19. The commentary was written for this example without a runtime model. Reusable SQL and supporting tables are provided with an ordered report, not with this preview.
