Disclosure Statement

This report uses publicly available data from the Federal Procurement Data System (FPDS). It is intended for informational and analytical purposes.

At a glance

Each row shows reported net obligations by federal fiscal quarter. Q4 share uses the full-year net, only for eligible closed years.

Latest matched signed date: 2026-11-18. Actions without a reported obligation amount: 0.

FY 2027 is still open. Amounts reflect data at the cutoff; future quarters are marked with a dash.

Quarterly net obligations (USD)

Fiscal year	Q1	Q2	Q3	Q4	Q4 share
FY 2025	$156,862,580,863.89	$153,389,416,749.98	$179,214,098,073.25	$290,952,945,056.13	37.28%
FY 2026	$151,632,230,239.98	$218,654,141,231.83	$236,645,999,751.15	$200,774,769,654.43	24.86%
FY 2027 (open)	$21,007,761,382.85	–	–	–	N/A

Methodology

Source and period

FPDS Award actions signed in FY 2025 through FY 2027, inclusive, with a signed date through the 2026-11-19 cutoff (UTC). The federal fiscal year starts October 1 and ends September 30.

IDVs, Other Transactions and actions without a usable signed date are not included.

Filters

Awarding agency: Any (contracting-office agency, not the funder); principal NAICS: Any; PSC: Any. When set, codes must match exactly and filters combine with AND.

Fiscal quarters

Signed dates place transactions in Q1 (Oct-Dec), Q2 (Jan-Mar), Q3 (Apr-Jun) or Q4 (Jul-Sep). A closed fiscal year has passed September 30; its records can still be revised.

Calculation and coverage

Sum reported obligations in signed cents, including deobligations. Net obligations are not payments or contract ceilings. 'Not reported' means no amount was available for the quarter; it does not mean zero.

Q4 share is Q4 net divided by the sum of all four quarters' net obligations. Show it only for a closed year with reported amounts in all four quarters and a positive annual net. Negative adjustments can produce a share outside 0%-100%.

Reproduce the result

Queried at 2026-11-19T18:38:48+00:00. The ZIP contains the exact SELECT and the PDF. Run the SELECT in GETWAB FPDS Query to verify quarterly net cents, action coverage and the Q4 share against available records.

Conclusions

Analyst commentary / static archive sample

What the data shows

Q4 represented 37.28% of FY 2025 obligations but 24.86% of FY 2026, a drop of 12.42 percentage points. A strong late-year pattern in one fiscal year should not be assumed to repeat in the next.

How to use the result

Compare reported net figures quarter by quarter before planning staffing or outreach. Open FY 2027 has no Q4 share at the cutoff; do not use a missing quarter as zero or annualize uneven activity. Adjustments included in the net may also shift where the peak appears.

About this example

This fixed public sample uses an actual GETWAB report snapshot dated 2026-11-19. The commentary was written for this example without a runtime model. Reusable SQL and supporting tables are provided with an ordered report, not with this preview.
